THE DAILY AND WEEKLY HERALD has more than double the circulation of any other paper published in Southern California. Business men recognize it accordingly as the best advertising medium South of San Francisco.

## NEWS OF THE MORNING.

Returns received up to one o'clock this morning warrant the statement that the State has gone Democratic by from 15,000 to 20,000 majority.

The Democrats elect three of the four Congressmen-Piper in the First District; Luttrell in the Third, and Wigginton in the Fourth. Page, Republican, is re-elected in the Second District.

The Democrats have swept San Francisco by a large majority, electing their entire Legislature and municipal ticket.

In this county the Democrats elect their entire ticket, with the exception of Rowan, candidate for Treasurer; Temple, his competitor, getting in by a small majority.

Leach, Democratic nominee for Assemblyman in San Diego county, is defeated on account of his opposition to Wigginton. McCoy, for Sheriff, shared the same fate for the same cause.

Alameda county elects the entire Democratic Legislative ticket. Wonders will never cease.

Wigginton carries San Bernardino county by a small majority.

It is reported that Mayor Beaudry will tonight veto the resolution locating the Los Angeles and Independence railroad depot on San Pedro street.

San Luis Obispo county gives 100 Democratic majority.

San Quentin, which the Republicans were wont to call a Democratic precinct, gives Phelps eight majority over Irwin.

The general impression based on the evidence so far elicited is that Mr. RALSTON died of apoplexy and that he had no thought of taking his life when he went into the water.

When the HERALD said that Judge THOMPSON would poll a very respectable vote the Houghton men thought it a good joke and laughed consensually. As to whose head was nearest level we refer the curious to the returns. Several days before the election the Judge asserted that he would come out second in the race and at this the Houghton men laughed again. We now believe the Judge was very near the truth and we shall not be at all surprised if the full returns show Houghton to be the last man in the race.

However this may turn out those who laughed so heartily at the Judge's candidacy must admit that he developed a strength which astonished his most sanguine friends.

Dispatches from San Diego say that ex-Senator McCoy, Democratic candidate for Sheriff and LEACH, Democratic nominee for Assemblyman are both defeated by large majorities. We record the fact with a great deal of pleasure. The course of both these gentlemen during the campaign has been anything but Democratic. McCoy was a delegate to the convention which nominated Mr. WIGGINTON for Congress, yet he went home and repudiated the man he should have worked and voted for. He has in turn been repudiated by the Democracy of his county and we are glad of it. LEACH pandered to what he mistook to be a popular prejudice and while being a Democratic nominee used the little influence he possessed against a Democratic candidate. The election of such Democrats as McCoy and LEACH have proven themselves to be no credit to the party. Let them become mongrels by profession as they have by practice.

Our esteemed friends of the Federal Brigade are not happy. They played a nice little game and did not take a trick. They well knew that under the name of Republican they could not elect a single candidate in this county. The Independent wigwag was empty owing to the demise of the occupant, and the idea occurred to our friends BRIERLY and BOUTON to take possession of that dilapidated structure and try the experiment of running a ticket made up of Republicans under the name of Independent. It was a pretty neat trick but it did not work. The people saw the scheme and while the *Express* predicted the election of the entire ticket by a thousand majority, the voters went to the polls and knocked the house that BRIERLY built about the ears of the Republican candidates who had taken refuge beneath its roof. We rejoice in the victory of the people and hope that hereafter parties will retain their own names.

THE returns so far received indicate that the HERALD was rather below than above the mark when it fixed WIGGINTON's majority in the district at from 1,500 to 2,000. It is probable that before this issue of the HERALD is published we shall be able to give more definite figures. It now looks as though Mr. WIGGINTON's majority in this county will approximate 1,000. The vote on Congressman is a compliment to the intelligence of the people of Los Angeles county and shows that they are capable of judging between man and man even though the most competent is persistently misrepresented and abused as was Mr. WIGGINTON by the *Express* and other papers in the interest of Houghton. The HERALD advocated the election of WIGGINTON because it believed him the man of all the candidates before the people who would best represent Southern California in Congress and we are strong in the faith that he will prove himself as able and competent as we have represented him.

## The Wages of Labor.

There is much senseless ranting against the depreciation of wages in California by the competition of the Chinese. Now we are not among those who regard cheap labor a blessing. A fair distribution of the profits between the capitalist and the laborer promotes a healthy condition of society. Where capital commands such handsome returns as it does in this State, the laborer should be also rewarded. Mr. J. R. Dodge the Statistician of the Department of Agriculture at Washington in his last monthly report has an interesting article on the wages of farm laborers in the United States with board where hands contract by the year which shows that the Pacific coast offers the greatest inducements to the hardy toilers of the soil. In the Southern States the average monthly wages of farm hands are set down at \$10.17 per month; in the Western \$13.66; in the middle \$16.51; in the Eastern \$18.58; in the Territories \$18.25 and in the Pacific States \$28.12. Thus it will be seen that the laborer receives on this coast one hundred per cent more than in the Western States and in this despite of the fact that his board costs double what it does in Illinois or Ohio. In 1866 the Illinois farm hand received \$18.72 and now he gets \$16.14, a decrease of nearly 14 per cent; while the California hand now gets \$28.60 against \$30.35 in 1866 a decrease of only 5 per cent. The average for the whole country is now \$12.40 per month with board against \$15.88 in 1866—a falling off of nearly 22 per cent. Statistics sometimes spoil the nicest theories.

It is whispered that it is the intention of Mayor BEAUDRY to veto the ordinance locating the depot of the Los Angeles and Independence Railroad on San Pedro street. We do not know that His Honor has decided on this course, nor are we prepared to say that the point selected is or is not the most desirable location that could be found, but as a veto will accomplish nothing beyond delaying the progress of the road, we are in hopes that it will not be presented. The ordinance will be passed over the veto, and all that will result from the exercise of His Honor's prerogative will be delay; unless, indeed, the act will so exasperate the company that they will locate the depot away out at the race track. This would be a serious injury to the city.

A THOUSAND majority for the Independent ticket, with the present zeal and work kept up to the day of election, is a moderate calculation.—*Express* before election.

The *Express*' idea as to how the new people of Los Angeles were likely to vote proves to have been a very sagacious one. Well, we hear our honors noisily. Though we are not a prophet, nor a son of a prophet, nor yet the seventh son of a seventh son, we hit that matter precisely between wind and water.—*Express* after election.

The joke which connects the above extracts is found in the fact that the Independent elect one candidate and the Democrats sweep the county with majorities ranging from 100 to 700.

No, JOSEPH, you are not a prophet. You may have profited by your course, but your prophetic remarks remind one of a goose squawking by moonlight.

SAN FRANCISCO NEWS.

SAN FRANCISCO, Sept. 2.—The election yesterday was almost void of excitement. Most of the wards there was unusual dullness, in some places not a vote cast for an hour. Up to noon less than 5,000 had been cast in the 49 voting precincts, after that hour the voting increased somewhat. At two o'clock 12,000 had been polled. Most of the voting had been done from 4 o'clock up to the closing of the polls. Quiet and order prevailed up to the close, and during the whole day but one person was arrested for infringing the one hundred foot law, and this proved to be an inadvertence. It is safe to state that not more than five per cent. of the whole number of votes went in straight votes. Voters in all parties freely scratched, especially the city ticket. Up to twelve o'clock midnight less than two thousand votes had been counted in all the precincts of the city. The work progresses slowly, taking on an average ten minutes to count each ticket.

The indications are that the Democratic State ticket will have at least 3,000 majority in the city. For Mayor the contest is between Bryant and Clayton. It is thought that a majority of the Board of Supervisors will be Democratic.

D. O. Mills authorizes the statement that capitalists interested in the Bank of California will obtain transfer of stock from holders, relieving holders from liability, and guaranteeing them against loss, and will subscribe funds to place the bank in a condition to pay demands and put it on a sound basis. Should any surplus arise in the settlement, it will be credited pro rata to the stockholders. The arrangement will go into effect in a few days.

The feeling on the street this morning is cheerful and even buoyant. The Merchants' Exchange Bank opened this morning at the usual hour. The National Gold Bank and Trust Company report an improvement in the outlook for resumption, and its officers are evidently in good spirits. The Board of Brokers have had a meeting this morning, in which some action is expected looking towards the re-opening of the Board, though it is thought some settlement of the affairs of the Bank of California will be necessary as a precursor to the opening of the stock Board. The reports of the called meeting of the stockholders of the Bank of California prove unfounded. The Directors and friends of the bank are still at work endeavoring to arrange matters, and there is a strong feeling among well informed financiers that arrangements will be made to secure depositors against any loss, whether resumption takes place or not. On the whole, affairs seem to be looking up, and the best of feeling prevails in monetary and commercial circles.

Burdington rejoices in a prodigy, and in the next breath laments at that. Indeed it is a perfect wonder, and our educational men and teachers will find a great deal of instruction as well as pleasure in interviewing the child, a bright boy of nine years. His name is Alfred T. Tabot, and his parents are Mr. and Mrs. N. 1,227 Broadway street.

The boy's health is rather delicate, so that he has not been sent to school a great deal, but he can perform arithmetical feats that remind one of the stories told about Zerah Colburn. He was always bright, and possesses a remarkable memory. We heard of him the other day, and in company with two or three members of the school board, went to the home of the prodigy for an interview. He was marvelously ready with answers to every question. Our easy starters such as "add 6 and 3 and 7 and 8 and 2 and 9 and 5," were answered like a flash, and correctly every time. Then when we got the little fellow at his ease, one of the directors took him in hand. He said:

"Three times 11, plus 9, minus 17, divided by 3, plus 1, multiplied by 3, less 3, add 7, is how?"

"Nine," shouted the boy, almost before the last word was spoken, and the school inspectors and the newspaper man looked at each other in blank amazement. Then the other inspector tried it.

"Multiply 5 by 13, add 19, subtract 19, divide by 2, add 7, multiply by 9, add 15, divide by 7, add 8, multiply by 3, less 13, add 9, multiply by 7, divide by 9, add 13, divide by 11—how many?"

"Ninety-six!" fairly yelled the delighted boy, clapping his hands with

he replied, "I know he is, for my husband would not harm a hair of his head." When recovering herself she added, nervously, "I mean if he had anything to do with it."

The *Herald* editorially believes that this admission of Mrs. Mosher is of considerable importance at this stage of the case, as there is good reason to believe that she knows whereof she speaks.

Fall River Strikers Still Enjoying their Vacation.

FALL RIVER, Mass., Sept. 2d.—The so-called vacation of the mill operatives still continues, with scarcely any new developments, and there is no prospect at present that the mills will start before October 1st, and it is not certain even then, as the help have voted not to resume at the reduction, but to canvass New England for assistance and fight the manufacturers to the end. The applications to the city for help are daily on the increase, averaging about 75. Assistance is refused in every case. There is great destitution among the operatives.

A Pedestrian Falls.

PITTSBURG, Sept. 2.—Harry Brooks, the English pedestrian, who undertook to walk one hundred half miles in one hundred half hours failed last night, after walking seventy half miles. In about sixteen days he was rather weak, but lightness of gate money is supposed to have been the reason for stopping as he performed the feat twice before.

"Ninety-six!" fairly yelled the delighted boy, clapping his hands with

merment at the amazement which crowned the countenances of the interviewers, and the inspectors turned to the paper man and said, "Take him Mr. Hawk-Eye."

Then we did our best to throw the boy. As fast as we could speak, without punctuation, we rattled off this:

"Add 24 to 17, multiply by 9, divide by 3, add 33 per cent, multiply by 16, extract square root add 9 divided by 3-5 of 3, add 119 divided by 77 times 44 square the quotient and multiply by 17, add 77 and divide by 33 how ma—"

But before he could say the last syllable the boy fairly screamed:

"One hundred and twenty-seven and seven-eighths! Ask me a harder one!"

We had seen enough, and with feelings amounting almost to awe we left this wonderful boy. We talked about his marvellous powers all the way down. Finally it happened to occur to one of the inspectors to ask the other inspector.

"Did you follow my example through to notice whether the boy answered it correctly?"

The tone of amazement gradually passed away from the inspector's face, as he faintly gasped:

"N-no, not exactly, did you?"

Then the first inspector ceased to look mystified, and began to look very much like Mr. Skin. He did when he got the Nebraska fruit, and they both turned to the gentleman who represented the literary department of the expedition, and said lugubriously.

"Did you?"

But he only said:

"The B. & N. W. narrow-gauge will be owned, not by Eastern capitalists, but by the people through whose country it passes."

Milwaukee News: One of the reasons why a fight frequently occurs in Montana churches is that while the preacher is praying the congregation sit on the backs of chairs and frequently ejaculate, "that's right, old hoss!" "bully for you!" he's a book sharp!" "Give 'em hell!" etc. Sometimes the minister gets riled, and there's where the disturbance comes in.

A Methodist minister in a favored region of Kansas received only fifty cents for his first quarter's salary. He resigned at once and left for the grass-hopper belt.

## BANK NOTICE.

OWING TO THE DIFFICULTY OF obtaining gold and silver immediately on demand in our home market and the impossibility of that on route from the East to reach us; this, coupled with a reluctance to press our customers and bring upon our community unnecessary disaster, we are compelled to close our respective banks for thirty days from date.

We regret the necessity that leads to this step, but the extraordinary occurrences in our commercial metropolis that compelled institutions will, we trust, be our apology. Every dollar will be paid our depositors in gold coin and with all possible dispatch. We will allow to call depositors without discount interest at the rate of one per cent. per month for the time they are thus involuntarily deprived of the use of their money.
